

Environmental & Waste Policy

April 2025

Environmental & Waste Policy

Introduction

emagine Consulting A/S, Reg-no. 26 24 96 27, and its subsidiaries and associated companies (collectively the "Group") and employees are required to comply with this Environmental & Waste Policy.

Our Goal

emagine Group's scope is supplying resources and expertise within IT, tech and business management and our Environmental & Waste Policy must be read in that context.

emagine Group is actively working on reducing our environmental footprint, and continually improving our sustainable growth performance by complying with applicable environmental legislations, regulations and codes of practice.

Policy

At emagine Group, we strive to protect the environment, reduce our environmental impact, and continually improve our environmental sustainability performance. This is an integral and fundamental part of our business strategy and operating methods. Our customers and other stakeholders can expect emagine Group to:

- Educate and motivate our employees to perform their tasks in an environmentally responsible manner.
- Set up environmental objectives to practice environmental management and strive to achieve them.
- Minimize waste - by reducing or minimizing the use of water, energy, and paper.
- Identify potential impacts on the environment throughout the life cycle of services and strive to improve them.
- Minimize energy use and reduce greenhouse gas emissions by improving energy efficiency, using renewable energy, electric company cars and engaging in decarbonization actions.
- Secure safe use of chemicals, review their environmental and health impacts, use them safely and dispose of them properly.
- Conduct environmental and sustainability assessments when contracting with suppliers and take these results into account when making purchasing decisions.
- Minimize effects on the environment such as water pollution and air pollution.
- Identify optimal transport distances and select appropriate transportation methods to reduce the environmental impact when commuting to our offices.
- Recognize the importance of protecting natural capital and biodiversity. We will comply with applicable national, regional, and local legal requirements at all places of business covered by the International Convention on Biodiversity and Land Protection (World Heritage areas, IUCN Category I-IV protected area).
- Predict the impact of the project on the environment and biodiversity, prevent and minimize risk factors, and continuously monitor the impact while promoting projects such as new and existing policies, expansions, and projects.
- Strive to minimize biodiversity loss (NNL, No Net Loss) and further create a positive impact (NPI, Net Positive Impact).
